

Reflection series

Designed by Asger Risborg Jakobsen, Denmark

Born from the idea and aspiration to create something simple, elegant, and timeless that embraces and highlights the basic features of a lamp, namely the light source and the shade, Reflection came to life. The decision to separate the two basic components creates a beautiful reflection and interplay between the shade and the soft light source. A beautiful design with a timeless yet lively feel.

Meet the designer

The Danish designer and MD, Asger Risborg Jakobsen, is inspired by the simultaneous complexity and simplicity of nature. When he designs, he tries to break his ideas down to their essence; function, beauty, character and craftsmanship. In this search for the essence of objects he seeks to create long-lasting designs that reflect the beauty of the world they are a part of.
